## Benefits of Trees in the Urban Forest

- Trees reduce annual energy costs.
- Trees increase property values.
- Trees reduce flooding and water pollution.
- Trees reduce air pollution.
- Trees cool urban areas.
- Trees reduce urban noise.
- Trees absorb carbon dioxide and release oxygen.
- Trees are beautiful and make our environment aesthetically appealing.
- Trees are a natural refuge for wildlife.
- Trees contribute to the economic prosperity of a community.

# Montgomery Trees Mission and Projects

## Mission:

The mission of Montgomery Trees is to promote, enhance and protect the urban forest. We do this by:

- Raising funds to purchase and plant trees.
- Providing education and training programs for schools and the public.
- Promoting environmentally sound economic development in the city and county.
- Promoting awareness of the importance of conservation of green spaces and protection of watersheds.
- Identifying and encouraging the maintenance and preservation of significant trees.

## Some of Our Projects Include:

Legacy Tree Project, Arbor Day Events, Tree City USA designation, Cypress Nature Park, Trees for Schools, Take Root Montgomery, Trees for the Trail, Earth Day activities, Tree Care workshops, classes for arborists, and tree planting projects throughout Montgomery for non-profit organizations

Montgomery Trees is a non-profit 501(c)(3) organization. All donations are tax-deductible to the extent allowable by law.

## Legacy Tree Information

Who does the planting?

**The City plants and mulches a two inch caliper tree in a public location**

When are the trees planted?

**Trees are planted in the fall and winter when optimal new root growth can be realized.**

Where will the trees be planted?

**Trees are professionally planted on public land, at churches and other institutions by special arrangement.**

How much does it cost?

**One tree with granite marker costs \$250. Donations of any amount are welcome.**
